

## Before You Start Reading...

Hello, my name is Emily and I am a senior Girl Scout. My troop and their mothers visited the Birthplace in March of 2004. Our group totaled 18 people, eleven girls and eight mothers. I have done my best to update this information so it is still useful for more current trips. The following information given on planning your visit to the Birthplace and other activities to do while you are on your trip contains the suggestions and opinions of my troop and leader (who is also my mother). These opinions are there to aid in the process of planning and to make your trip a memorable one. They will be **bolded** so they are easily picked out. I hope you will take the time to read these suggestions. Thank You.
